ASTON/Herndon Large Cap Value Fund

INVESTMENT OBJECTIVE

The Fund seeks to provide long-term capital appreciation.

FEES AND EXPENSES

The table below describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

ANNUAL FUND OPERATING EXPENSES

(expenses that you pay each year as a percentage of the value of your investment)

	Class N Shares	Class I Shares
Management Fees	0.80%	0.80%
Distribution (12b-1) Fees	0.25%	None
Other Expenses	12.79%	12.79% ^(a)
Acquired Fund Fees and Expenses.....	0.02%	0.02%
Total Annual Fund Operating Expenses.....	13.86%	13.61%
Fee Waiver and/or Expense Reimbursement.....	(12.54)% ^(b)	(12.54)% ^(b)
Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement	1.32% ^(b)	1.07% ^(b)

^(a) Other expenses are estimated for the current fiscal year.

^(b) The adviser is contractually obligated to waive management fees and/or reimburse ordinary operating expenses through February 28, 2012 at the rates shown in the table, not including fees and expenses from investments in other investment companies (acquired fund fees and expenses). Prior to February 28, 2012, the arrangement may be amended or terminated for a class only by a vote of the Board of Trustees of Aston Funds. For a period of up to three years from the fiscal year end during which such amount was waived or reimbursed, the adviser is entitled to be reimbursed by the Fund for fees waived and expenses reimbursed from commencement of operations through the completion of the first three full fiscal years to the extent that the Fund's expense ratio, not including acquired fund fees and expenses, remains at or below the operating expense cap after such reimbursement.

EXAMPLE

This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The example shows the operating expenses you would incur as a shareholder if you invested \$10,000 in the Fund over the time periods shown and you redeem all your shares at the end of those periods. The example assumes that the average annual return was 5% and that operating expenses remained the same and expenses were capped for one year in each period.

Although your actual costs may be higher or lower, based on the above assumptions, your costs would be:

	1 Year	3 Years	5 Years	10 Years
Class N Shares	\$ 134	\$ 2,759	\$ 4,940	\$ 8,909
Class I Shares	\$ 109	\$ 2,700	\$ 4,863	\$ 8,839

PORTFOLIO TURNOVER

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual Fund operating expenses or in the example, affect the Fund's performance. During the period beginning March 31, 2010 (commencement of operations) through the fiscal year end, the Fund's portfolio turnover rate was 38.64%.

PRINCIPAL INVESTMENT STRATEGIES

Under normal circumstances, the Fund invests at least 80% of its assets in securities of large-cap companies that the portfolio manager believes are undervalued compared to their perceived worth. Value companies tend to have stock prices that are low relative to their earnings, dividends, assets or other financial measures. The Fund defines large-cap companies as companies with a market capitalization, at the time of acquisition, within the range of market capitalizations of companies constituting the Russell 1000 Index. As of December 31, 2010, the market capitalization range of the Russell 1000 Index was approximately \$251 million to \$372 billion.

The portfolio manager combines a value-oriented approach with fundamental analysis to seek to identify companies primarily from the Russell 1000 Index that he believes have strong fundamentals and are undervalued relative to other companies comprising the Russell 1000 Index. Companies that meet minimum capitalization and quality screens are evaluated and ranked based on a number of fundamental metrics. The portfolio manager seeks to construct a portfolio that has the following characteristics relative to the Russell 1000 Index:

- higher quality
- higher dividend growth rates
- lower valuation
- stronger earnings growth
- lower volatility

To manage risk, the portfolio manager seeks to limit sector and security exposure, maintain sector diversification, maintain a bias towards liquidity and adhere to a disciplined sell process.

PRINCIPAL RISKS

You could lose money by investing in the Fund. There can be no assurance that the Fund's investment objective will be achieved. The following is a summary of the principal risks of investing in the Fund.

Liquidity Risk. When there is no willing buyer and investments cannot be readily sold at the desired time or price, the Fund may need to accept a lower price or may not be able to sell the security at all. An inability to sell securities can adversely affect the Fund's value or prevent the Fund from being able to take advantage of other investment opportunities. Less liquid securities are more difficult to dispose of at their recorded values and are subject to increased spreads and volatility.

Manager Risk. The performance of the Fund is dependent upon the investment adviser's skill in selecting managers and the portfolio manager's skill in making appropriate investments. As a result, the Fund may underperform its benchmark or its peers.

Market Risk. The Fund's share price can move down in response to stock market conditions, changes in the economy or changes in a particular company's stock price. An individual stock may decline in value even when the value of stocks in general is rising.

Value Style Risk. Value investing involves buying stocks that are out of favor and/or undervalued in comparison to their peers or their prospects for growth. Typically, their valuation levels are less than those of growth stocks. Because different types of stocks go out of favor with investors depending on market and economic conditions, the Fund's return may be adversely affected during a market downturn and when value stocks are out of favor.

FUND PERFORMANCE

The Fund does not have a full calendar year of operations. Performance information will be included in the Fund's shareholder reports.

MANAGEMENT

Aston Asset Management, LP serves as investment adviser to the Fund. Herndon Capital Management, LLC (“Herndon” or “Subadviser”) serves as the subadviser to the Fund.

Randell A. Cain Jr., CFA, a Principal of Herndon, serves as the portfolio manager of the Fund. Mr. Cain has served as the portfolio manager since the Fund’s inception in March 2010.

PURCHASE AND SALE OF FUND SHARES

Shares of the Fund may be purchased, exchanged, or redeemed on any business day by written request (Aston Funds, P.O. Box 9765, Providence, RI 02940), wire transfer, online access (www.astonfunds.com), or by telephone (800-992-8151). Additional information may be required on certain redemptions. Investors who wish to purchase, exchange or redeem Fund shares through a broker-dealer should contact the broker-dealer directly.

Class and Account Type	Minimum Initial Investment	Subsequent Investments
Class N - Regular Accounts	\$2,500	\$50
Individual Retirement Accounts (IRAs)	\$500	\$50
Education Savings Accounts (ESAs)	\$500	\$50
Custodial Accounts for Minors (UGMA/UTMA)	\$500	\$50
Class I – Institutional Accounts	\$1 Million	\$50

TAX INFORMATION

The Fund’s distributions are generally taxable as ordinary income or capital gains for federal income tax purposes, unless you are investing through a tax-deferred account such as a 401(k) or individual retirement account. Distributions on investments made through tax-deferred vehicles, such as 401(k) plans or IRAs, may be taxed later upon withdrawal of assets from those plans or accounts.

PAYMENTS TO BROKER-DEALERS AND OTHER FINANCIAL INTERMEDIARIES

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s website for more information.

Additional Information Regarding Investment Strategies

The investment policy of the Fund relating to the type of securities in which 80% of the Fund's assets must be invested may be changed by the Board of Trustees without shareholder approval. Shareholders will, however, receive at least 60 days' notice of such change.

In addition to the principal investment strategies described in the Fund Summary, there may be times when the Fund uses secondary investment strategies in seeking to achieve its investment objective. Information regarding such secondary strategies is shown below.

Convertible Securities

Convertible securities are fixed income or equity securities that pay interest or dividends and that may be exchanged on certain terms into common stock of the same corporation.

Because of the conversion feature, the market value of convertible securities tends to move together with the market value of the underlying stock. The value of convertible securities is also affected by prevailing interest rates, the credit quality of the issuer and any call provisions. There is the risk that the issuer of the security will not be able to make principal and/or interest payments as well as the risk that the holder of the security may not take advantage of the convertible features in the appropriate time frame.

Defensive Strategy

There may be times when the Fund takes temporary positions that may not achieve its investment objective or follow its principal investment strategies for defensive reasons. This includes investing all or a portion of its total assets in cash or cash equivalents, such as money market securities and repurchase agreements. Although the Fund would do this in seeking to avoid losses, following a defensive strategy could reduce the benefit from any market upswings.

Depository Receipts of Foreign Securities

Depository receipts represent ownership of securities in foreign companies and are held in banks and trust companies. They can include American Depositary Receipts ("ADRs"), which are traded on U.S. exchanges and are U.S. dollar-denominated, European Depositary Receipts ("EDRs"), which are traded on European exchanges and may not be denominated in the same currency as the security they represent, and Global Depositary Receipts ("GDRs"), which are issued globally and evidence a similar ownership arrangement.

Although ADRs, EDRs and GDRs do not eliminate the risks inherent in investing in the securities of foreign issuers, which include market, political, currency and regulatory risk, by investing in ADRs, EDRs or GDRs rather than directly in securities of foreign issuers, the Fund may avoid currency risks during the settlement period for purchases or sales. In general, there is a large, liquid market in the United States for many ADRs. The information available for ADRs is subject to the accounting, auditing and financial reporting standards of the domestic market or exchange on which they are traded, in which standards are more uniform and more exacting than those to which many foreign issuers may be subject. The Fund may invest in ADRs sponsored or unsponsored by the issuer of the underlying security. In the case of an unsponsored ADR, the Fund may bear higher expenses and encounter greater difficulty in receiving shareholder communications than it would have with a sponsored ADR.

Foreign Securities

Foreign securities are securities issued by corporations, governments and other issuers located outside the United States. Foreign securities are subject to additional risks.

Preferred Stocks

Preferred stocks are stocks that pay dividends at a specified rate. Dividends are paid on preferred stocks before they are paid on common stocks. In addition, preferred stockholders have priority over common stockholders as to the proceeds from the liquidation of a company's assets, but are subordinate to the claims of all creditors.

Additional Information Regarding... (cont'd)

REITs

Real Estate Investment Trusts (“REITs”) are generally publicly traded entities that invest in office buildings, apartment complexes, industrial facilities, shopping centers and other commercial spaces. REITs are pooled investment vehicles that typically invest directly in real estate, in mortgages and loans collateralized by real estate, or in a combination of the two. Equity REITs invest primarily in real estate that produces income from rentals. Mortgage REITs invest primarily in mortgages and derive their income from interest payments. REITs usually specialize in a particular type of property and may concentrate their investments in particular geographical areas. REITs issue stocks and most REIT stocks trade on the major stock exchanges or over-the-counter.

Portfolio Holdings

A description of the policies and procedures with respect to the disclosure of the Fund’s portfolio holdings is available in the Statement of Additional Information (“SAI”) and on our Web site at www.astonfunds.com.

Investment Terms

The following is a list of terms with definitions that you may find helpful as you read this prospectus.

Diversification. The practice of investing in a broad range of securities to reduce risk.

Equity Securities. Ownership interests in corporations and other entities, such as: common stocks, preferred stocks, convertible securities, rights and warrants.

Expense Ratio. A fund's cost of doing business, expressed as a percentage of its net assets and disclosed in a prospectus.

Fundamental Analysis. Fundamental analysis involves assessing whether a particular stock or group of stocks is undervalued or overvalued at its current market price based on an analysis of the balance sheet and income statement of the company. Fundamental analysis considers various historical financial statistics or metrics such as return on equity, free cash flow, price-to-earnings ratio, and similar measures to determine future trends in a company's stock.

Investment Objective. The goal that an investor and a mutual fund seek together. Examples include current income, total return, long-term capital appreciation, etc.

Issuer. The company, municipality or government agency that issues a security, such as a stock, bond or money market security.

Management Fee. The amount that a mutual fund pays to the investment adviser for its services.

Market Capitalization. Value of a corporation or other entity as determined by the market price of its securities.

Mutual Fund. An investment company that stands ready to buy back its shares at their current net asset value. Most mutual funds continuously offer new shares to investors.

Net Asset Value (NAV). The per share value of a mutual fund, found by subtracting the fund's liabilities from its assets and dividing by the number of shares outstanding. Mutual funds calculate their NAVs at least once a day.

Real Estate Investment Trusts (REITs). REITs are pooled investment vehicles that typically invest directly in real estate, in mortgages and loans collateralized by real estate, or in a combination of the two.

Risk/Reward Trade-Off. The principle that an investment must offer higher potential returns as compensation for the likelihood of increased volatility.

12b-1 Fee. A mutual fund fee, named for the Securities and Exchange Commission ("SEC") rule that permits it, used to pay for distribution costs, such as advertising and commissions paid to dealers. If a fund has a 12b-1 fee, it is found in the fee table of its prospectus. (See "Distribution Plan 12b-1 Fees" in the "Shareholder Information" Section.)

Value Style Investing. An investing approach that involves buying stocks that are out of favor and/or undervalued compared to their peers. Generally, value stock valuation levels are lower than growth stock valuation levels.

Management of the Fund

INVESTMENT ADVISER

ASTON ASSET MANAGEMENT, LP

Aston Asset Management, LP (“Aston” or “Adviser”), 120 N. LaSalle Street, 25th Floor, Chicago, Illinois 60602, is the investment adviser to the Fund. Aston is a majority-owned and independently managed indirect subsidiary of Affiliated Managers Group, Inc. (“AMG”). More information on AMG is available in the SAI. Aston was formed in April 2006 and as of December 31, 2010, Aston had approximately \$8.4 billion in assets under management.

Aston provides investment advisory, mutual fund administration and distribution-related services to the Aston Funds. Aston manages the Fund by selecting one or more other investment managers to manage the Fund’s portfolio on a sub-advisory basis. Aston is responsible for identifying and selecting the Fund’s investment managers, monitoring the performance of such managers, and terminating managers. Aston intends to manage the Fund by engaging Herndon as subadviser to manage the Fund’s investments.

Aston and the Aston Funds have received an exemptive order from the SEC that allows Aston to allocate and reallocate the assets of the Fund between and among any subadvisers so selected pursuant to a “manager-of-managers” structure. Under this structure, Aston has the authority to retain and terminate subadvisers, engage new subadvisers and make material revisions to the terms of the subadvisory agreements subject to the approval of the Board of Trustees, but not shareholder approval.

GENERAL

As the investment adviser to the Fund, Aston is paid an annual management fee based on the average daily net assets of the Fund. Out of its fee, Aston pays the Subadviser of the Fund. For its advisory services, Aston is entitled to receive a management fee from the Fund at an annual rate of 0.80% based on the average daily net assets.

The investment advisory agreement with Aston may be terminated at any time by the Fund or Aston upon at least 60 days’ written notice to the other party. The Fund may effect termination by an action of the Board of Trustees or by a vote of a majority of the Fund’s outstanding voting securities.

A discussion regarding the Board’s basis for approving the investment advisory agreement and subadvisory agreement was made available in the Fund’s first shareholder report dated April 30, 2010.

SUBADVISER

The accompanying information highlights the Fund’s Subadviser and its portfolio manager.

Herndon Capital Management, LLC, 100 Auburn Ave., Suite 300, Atlanta, GA 30303, is an institutional investment management firm specializing in large capitalization equity strategies. Founded in 2001, the firm is majority owned by Atlanta Life Financial Group, a 100 year old financial services firm, which is majority owned by the Alonzo F. and Norris B. Herndon Foundation, Inc. Members of Herndon senior management currently own 45% of the firm. As of December 31, 2010, Herndon managed approximately \$2.5 billion in assets.

Management of the Fund *(cont'd)*

PORTFOLIO MANAGER

Randell Cain has been the portfolio manager of the Fund since the Fund's inception in March 2010. Mr. Cain joined Herndon in 2002 and is a Principal and Portfolio Manager for Herndon. Prior to joining Herndon, he was a portfolio manager at NCM Capital for five years. Mr. Cain received a BS from Morehouse College, a Bachelor of Industrial Engineering from Georgia Institute of Technology, an MBA from Harvard Business School and holds the Chartered Financial Analyst designation.

Additional information about the portfolio manager's compensation, other accounts managed by the portfolio manager and the portfolio manager's ownership of securities of the Fund is available in the SAI.

Management of the Fund *(cont'd)*

RELATED PERFORMANCE

The following tables show the performance of a composite of all fully discretionary large-cap U.S. value equity accounts managed by Herndon. As of December 31, 2010, the composite was comprised of 68 accounts and assets of \$1.3 billion. The investment objective, policies and strategies of the ASTON/Herndon Large Cap Value Fund are substantially similar to those of the accounts comprising the composite.

The performance of the composite does not represent the historical performance of the ASTON/Herndon Large Cap Value Fund and should not be considered indicative of future performance of the Fund. Results may differ because of, among other things, differences in brokerage commissions, account expenses including management fees, the size of positions taken in relation to account size, diversification of the portfolio, timing of purchases and sales and availability of cash for new investment.

Composite results are shown net of management fees and expenses of accounts comprising the composite. If the Fund's fees and expenses had been used in calculating the composite's performance, the performance of the composite would have been lower.

In addition, the accounts comprising the composite are not subject to certain investment limitations, diversification requirements and other restrictions imposed by the Investment Company Act of 1940 ("1940 Act"), and the Internal Revenue Code of 1986, as amended, which if applicable, may have adversely affected the performance results of the composite. The results for different products may vary.

Total Return

Year end	Herndon Large Cap U.S. Value Composite	Russell 1000 Value Index
2010	18.77%	15.51%
2009	35.85%	19.69%
2008	-32.17%	-36.85%
2007	9.89%	-0.17%
2006	14.81%	22.25%
2005	15.30%	7.05%
2004	28.63%	16.49%
2003	31.02%	30.03%

Average Annual Total Return

(For the periods ended December 31, 2010)

Periods Ended 12/31/10	Herndon Large Cap U.S. Value Composite	Russell 1000 Value Index
One Year	18.77%	15.51%

Five Years	10.86%	5.15%

(a) Since inception return is computed from 6/30/02.

Shareholder Information

OPENING AN ACCOUNT

- Read this prospectus carefully.
- Determine how much you want to invest. The minimum initial investment requirements for the Fund are as follows:

Class and Account Type	Minimum Initial Investment	Subsequent Investments
Class N - Regular Accounts	\$2,500	\$50
Individual Retirement Accounts (IRAs)	\$500	\$50
Education Savings Accounts (ESAs)	\$500	\$50
Uniform Gift to Minor Accounts/Uniform Transfer to Minor Accounts (UGMA/UTMA)	\$500	\$50
Class I - Institutional Accounts	\$1 Million	\$50

- The minimum initial investment requirement may be waived:
 - For Trustees of Aston Funds, employees of Aston, its affiliates, Herndon, as well as their spouses.
 - By means of a “letter of intent” from an investor or financial adviser/consultant expressing an intent to purchase shares over a Board-approved specified period of time to meet the minimum investment requirement (Class I only).
 - For certain omnibus accounts, mutual fund advisory platforms and registered investment advisors, banks, trust companies or similar financial institutions investing for their own account or for the account of their clients or customers for whom such institution is exercising investment discretion, or otherwise acting on behalf of clients or customers, in purchasing Class I shares.
 - For individual accounts of a financial intermediary that charges an ongoing fee to its customers for its services or offers Class I shares through a no-load network or platform, and for accounts invested through fee-based advisory accounts, certain “wrap” programs and similar programs with approved intermediaries.
 - By Aston Funds in its discretion.
- Balances within the same Fund may be aggregated to meet the Class I minimum initial investment requirements for the accounts of: clients of a financial adviser/consultant, immediate family members (i.e., a person’s spouse, parents, children, siblings and in-laws), and a corporation or other legal entity.
- Complete the account application and carefully follow the instructions. If you have any questions, please call 800 992-8151. Remember to complete the “Purchase, Exchange and Redemption Authorization” section of the account application to establish your account privileges, and to avoid any delay and inconvenience of needing to request these in writing at a later date.
- Purchase, exchange and redemption requests (“investment requests”) received in good order and processed before the New York Stock Exchange (“NYSE”) market close, typically 4:00 p.m. Eastern Time (“ET”), receive that business day’s NAV. Trades received after that time receive the following business day’s NAV. An investment request received that is not in “good order” will receive the NAV on the date the request is in “good order.”
- All investment requests must be received in “good order.” An investment request received that is not in “good order” will receive the NAV on the date the investment request is determined to be received in “good order.”
- Make your initial investment using the following table as a guideline. If your investment request is your initial purchase into the Fund, your account number will be assigned to you upon the Fund’s receipt of the investment request in “good order”.

Shareholder Information)

Buy, Exchange and Sell Requests are in “good order” when

- The account number and Fund name are included.
- The amount of the transaction is specified in dollars or shares.
- Signatures of all owners appear exactly as they are registered on the account in original form, as photocopies are not acceptable.
- Any required Medallion Signature Guarantees are included.
- Other supporting legal documents (as necessary) are present, including such “Requirements for Written Requests” as described later in this “Shareholder Information” Section.

EXCHANGING SHARES

How does an exchange take place?

When you exchange your shares, you authorize the sale of your shares in one fund to purchase shares of another fund. In other words, you are requesting a sale and then a purchase. The exchange of your shares may be a taxable event for federal income tax purposes if the shares are not held in a tax deferred account.

After you have opened an account with us, you can exchange your shares within Aston Funds to meet your changing investment goals or other needs. This privilege is not designed for frequent trading and may be difficult to implement in times of drastic market changes.

You can exchange shares from one Aston Fund to another within the same class of shares. All exchanges to open new accounts in other Aston Funds must meet the minimum initial investment requirements. Exchanges may be made by mail, through the Internet or by phone at 800 992-8151 if you chose this option when you opened your account.

In addition the Aston Money Market Fund – Bedford Shares of the Money Market Portfolio of the RBB Fund, Inc. offered in connection with the Aston Funds (the "Aston Money Market Fund") is available as an exchange option for shareholders of the Aston Funds class N shares. The Aston Money Market Fund prospectus, including applicable investment minimums, is available by contacting Aston Funds by mail, through the internet or by phone at 800 992-8151. Please read the Aston Money Market Fund prospectus carefully before investing.

For federal income tax purposes, each exchange into a different fund is treated as a sale and a new purchase. As a result, an investor holding shares in a non-tax deferred account is subject to federal income tax on any appreciation on the shares exchanged.

Aston Funds reserves the right to limit, impose charges upon, terminate or otherwise modify the exchange privilege by sending written notice to shareholders. All exchange requests must be in "good order."

Aston may allow eligible shareholders to convert their shares between classes within the same Fund, for example from Class I to Class N or vice versa, if offered in the shareholder's state of residence. No sales charges or other charges will apply to any such exchange. For federal income tax purposes, a same-fund exchange is not expected to result in the recognition by the investor of a capital gain or loss.

SELLING/REDEEMING SHARES

Once you have opened an account with us, you can sell your shares to meet your changing investment goals or other needs. All redemption requests must be in "good order." The following table shows guidelines for selling shares.

Shareholder Information *(cont'd)*

Selling Shares	Designed for ...	To sell some or all of your shares...
Through Your Financial Representative	<ul style="list-style-type: none"> All share classes and accounts of any type. 	<ul style="list-style-type: none"> Your financial representative is responsible for transmitting the order promptly.

Selling Shares in Writing

In certain circumstances, you must make your request to sell shares in writing. You may need to include a Medallion Signature Guarantee (which protects you against fraudulent orders) and additional items with your request, as shown in the table below.

We require Medallion Signature Guarantees if:

- your address of record has changed within the past 30 days
- you are selling more than \$50,000 worth of shares
- you are requesting payment other than by a check mailed to the address of record and payable to the registered owner(s) or other than by wire or ACH sent to the bank account of the registered owner(s)

Seller	Requirements for Written Requests

What is a Medallion Signature Guarantee?

A Medallion Signature Guarantee verifies the authenticity of your signature and may be obtained from a domestic bank or trust company, broker, dealer, clearing agency, savings association or other financial institution that participates in a Medallion Program recognized by the Securities Transfer Association.

Medallion Signature Guarantees help ensure that major transactions or changes to your account are in fact authorized by you. For example, we require a Medallion Signature Guarantee on written redemption requests for more than \$50,000. The three recognized medallion programs are Securities Transfer Agents Medallion Program (STAMP), Stock Exchanges Medallion Program (SEMP) and New York Stock Exchange, Inc. Medallion Signature Program (NYSE MSP). Signature guarantees from financial institutions that do not participate in one of these programs will not be accepted.

A notary public stamp or seal cannot be substituted for a Medallion Signature Guarantee.

In addition to the situations described above, Aston Funds may require Medallion Signature Guarantees in other circumstances based on the amount of the redemption request or other factors.

Other Features

The following other features are also available to buy and sell shares of the Fund.

Wire. To purchase and sell shares via the Federal Reserve Wire System:

- You must authorize Aston Funds to honor wire instructions before using this feature. Complete the appropriate section on the application when opening your account or call 800 992-8151 to add the feature after your account is opened. Call 800 992-8151 before your first use to verify that this feature is set up on your account.
- To sell shares by wire, you must designate the U.S. commercial bank account(s) into which you wish to have the redemption proceeds deposited.

Shareholder Information *(cont'd)*

For accounts with existing wire instructions, wire redemptions may be placed over the phone. Consult your banking institution for any fees it may charge associated with wire transfers. Any changes made to existing wire instructions will only be accepted with a Medallion Signature Guaranteed letter of instruction.

Automated Clearing House (ACH). To transfer money between your bank account and your Aston Funds account(s):

- You must authorize Aston Funds to honor ACH instructions before using this feature. Complete the appropriate section on the application when opening your account or call 800 992-8151 to add the feature after your account is opened. Call 800 992-8151 before your first use to verify that this feature is set up on your account.
- Most transfers are completed within three business days of your call. ACH purchases will receive the NAV calculated on the day the money is received.
- There is no fee to your mutual fund account for this transaction.

Redemptions in Kind

The Fund has elected, under Rule 18f-1 under the 1940 Act to pay sales proceeds in cash up to \$250,000 or 1% of the Fund's total value during any 90-day period for any one shareholder, whichever is less.

Larger redemptions may be detrimental to existing shareholders. While we intend to pay all sales proceeds in cash, we reserve the right to make higher payments to you in the form of certain marketable securities of the Fund. This is called a "redemption in kind." You may pay certain sales charges related to a redemption in kind, such as brokerage commissions, when you sell the securities. For shares that are not held in a tax deferred account, redemptions in kind are taxable events for federal income tax purposes in the same manner as when the sales proceeds are paid in cash.

Involuntary Redemptions

To reduce expenses, we may redeem your Fund position and/or close your position if the balance in your Fund position falls below the required Class I investment minimum or below \$2,500 due to transaction activity or for any reason. We may convert your position(s) in Class I shares of a Fund to the respective Class N shares of that Fund, if applicable. Unless you did not meet the minimum initial investment, we will give you 30 days notice before we convert, redeem, or close your Fund position(s), as applicable. This gives you an opportunity to purchase enough shares to raise the value of your Fund position above the applicable minimum initial investment. We will not redeem or close Fund positions in IRAs, Education Savings Accounts, custodial accounts for minors, or active Automatic Investment Plans because they do not meet the applicable minimum investment requirement. We may close a Fund position(s) in IRAs, Education Savings Accounts, custodial accounts for minors, or active Automatic Investment Plans due to insufficient information as it relates to customer identification procedures. If these account types are invested in Class I shares below the required minimum investment, we may convert the Fund position(s) to the appropriate Class N. Additionally we will not convert Class I accounts where there is an effective "letter of intent." Redemption fees will not be assessed on involuntary redemptions or involuntary conversions, as applicable.

TRANSACTION POLICIES

Calculating Share Price

When you buy/exchange or sell shares, the NAV next determined is used to price your purchase or sale. The NAV for each share of the Fund is determined each business day at the close of regular trading on the NYSE (typically 4 p.m. ET) by dividing the net assets by the number of its shares outstanding. Currently, the Fund observes the following holidays: New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. Generally, market quotes are used to price securities. If market quotations are not available or are deemed unreliable, securities are valued at fair value as determined by the investment

Shareholder Information *(cont'd)*

adviser in accordance with guidelines adopted and periodically reviewed by the Board of Trustees. These circumstances may arise, for instance, when trading in a security is suspended, the exchange or market on which a security is traded closes early, or the trading volume in a security is limited, calling into question the reliability of market quotations. In such a case, the Fund's value for a security may be different from the last quoted market price. In addition, due to the subjective and variable nature of fair value pricing, it is possible that the fair value determined for a particular security may be materially different from the value realized upon such security's sale. The Board of Trustees receives a summary of any actions taken under the Fund's fair valuation procedures.

Quotations of foreign securities denominated in foreign currency are converted to U.S. dollar equivalents using foreign exchange quotations received from independent dealers. Events affecting the values of portfolio securities that occur between the time their prices are determined and the close of regular trading on the NYSE may not be reflected in the calculation of NAV. If events materially affecting the value of such securities occur during such period, then these securities may be valued at fair value as determined by the investment adviser in accordance with guidelines adopted by the Board of Trustees.

The Fund may invest in certain securities which are primarily listed on foreign exchanges that trade on weekends and other days when the Fund does not price its shares. Therefore, the value of the Fund's holdings may change on days when you will not be able to purchase or redeem its shares.

Execution of Requests

The Fund is open on each business day that the NYSE is open for trading. The NYSE is not open on weekends or national holidays. Buy, exchange and sell requests are executed at the NAV next calculated after Aston Funds or an authorized broker or designee receives your mail, telephone or Internet request in "good order." Purchase orders and redemption requests must be received by the close of regular trading on the NYSE (typically 4 p.m. ET) for same day processing. On days when the Federal Reserve Cash Settlement System closes earlier than normal, these times may be accelerated. Sales proceeds are normally sent the next business day, but are always sent within seven days of receipt of a request in "good order." Brokers and their authorized designees are responsible for forwarding purchase orders and redemption requests to the Fund.

Shares of the Fund can also be purchased through broker-dealers, banks and trust departments that may charge you a transaction or other fee for their services. These fees are not charged if you purchase shares directly from Aston Funds.

The Fund may be required to "freeze" or redeem your account if there appears to be suspicious activity or if account information matches information on a government list of known terrorists or other suspicious persons.

Aston Funds reserves the right to:

- refuse any purchase or exchange of shares if it could adversely affect the Fund or its operations;
- suspend the offering of Fund shares;
- change the initial and additional investment minimums or to waive these minimums for any investor;
- delay sending you your sales proceeds for up to 15 days if you purchased shares by check. A minimum charge of \$20 will be assessed if any check used to purchase shares is returned;
- change, withdraw or waive various services, fees and account policies.

Customer Identification Program

Federal law requires Aston Funds to obtain, verify and record identifying information for each investor who opens or reopens an account with Aston Funds. An investor may be an individual or a person other than an individual (such as a corporation, partnership or trust). Such identifying information may include

Shareholder Information *(cont'd)*

the name, residential or business street address, principal place of business, local office or other physical location (for a person other than an individual), date of birth (for an individual), social security or taxpayer identification number or other identifying information. Applications without the required information, or without any indication that a social security or taxpayer identification number has been applied for, may not be accepted. After acceptance, to the extent permitted by applicable law or its customer identification program, Aston Funds reserves the right (a) to place limits on transactions in any account until the identity of the investor is verified; or (b) to refuse an investment in Aston Funds or to involuntarily redeem an investor's shares at the current share price and close an account in the event that an investor's identity is not verified within 90 days regardless of the type of account. This may cause shares in the investor's account to be redeemed at a loss. Aston Funds and its agents will not be responsible for any loss or adverse tax effect in an investor's account resulting from the investor's delay in providing all required identifying information or from closing an account and redeeming an investor's shares when an investor's identity cannot be verified. You may be subject to taxes if Aston Funds liquidates your account due to insufficient information as it relates to customer identification procedures.

Short-Term and Excessive Trading

The Fund is designed for long-term investors. The Fund discourages and does not knowingly accommodate short-term and excessive trading. Such trading increases brokerage and administrative costs, may result in increased taxable gains to remaining shareholders and may disrupt portfolio management. For example, the Fund may be unable to effectively invest the proceeds from certain purchase or exchange requests under certain market conditions or may incur losses on the sale of investments. These risks may be more pronounced for the Fund if it invests in securities that are more difficult to value or that are susceptible to pricing arbitrage (e.g., foreign securities, high yield securities and small cap securities). Thus, such trading may negatively impact the Fund's NAV and result in dilution to long-term shareholders.

In an effort to protect long-term shareholders, the Board of Trustees has adopted policies and procedures which seek to deter short-term and excessive trading and to detect such trading activity at levels that may be detrimental to the Fund. These policies and procedures include the following:

- The Fund or its agents will not be responsible for any unauthorized telephone or online order when reasonable procedures designed to verify the identity of the investor are followed.
- The Fund reserves the right to:
 - Reject any purchase, including exchange purchases, that could adversely affect the Fund or its operations;
 - Limit, terminate or otherwise modify the exchange privilege of any shareholder deemed to be engaged in activities that may be detrimental to the Fund;
 - Reject any purchase, including exchange purchases, from investors if there appears to be evidence of short-term or excessive trading;
 - Permanently prevent future purchases and exchanges from occurring in accounts where short-term or excessive trading is apparent;
 - Delay sending redemption proceeds for up to seven days (generally applies in cases of very large redemptions, excessive trading, or during unusual market conditions);
 - Suspend redemptions as permitted by law (e.g., emergency situations).

In making the determination to exercise these rights, the Fund may consider an investor's trading history in the Fund and accounts under common ownership or control. The Fund seeks to employ reasonable measures to detect short-term and excessive trading at levels that may be detrimental to the Fund.

Accordingly, the Fund uses certain materiality and volume thresholds in applying the policies and procedures, but otherwise seeks to apply the policies and procedures uniformly to all shareholders. With respect to accounts held through intermediaries, such intermediaries generally are contractually obligated

Shareholder Information *(cont'd)*

to provide the Fund with certain shareholder trading information. However, the Fund cannot directly control activity through all channels and is dependent on intermediaries to enforce the Fund's policies and procedures. In certain cases, intermediaries may be unable to implement these policies or may not be able to implement policies and procedures in the same manner as the Fund due to system or other constraints or issues. Shareholders who invest through omnibus accounts may be subject to policies and procedures that differ from those applied by the Fund to direct shareholders. The Fund reserves the right to limit an intermediary's future access to the Fund, up to and including terminating the selling agreement with said intermediary. There is no assurance that the Fund's policies and procedures will be effective in limiting and deterring short-term and excessive trading in all circumstances.

ACCOUNT POLICIES AND DIVIDENDS

Account Statements

In general, you will receive quarterly account statements. In addition, you will also receive account statements:

- after every transaction that affects your account balance (except for dividend reinvestments, automatic investment plans or systematic withdrawal plans);
- after any change of name or address of the registered owner(s).

You will also receive an annual statement that describes the federal income tax characteristics of any dividends and distributions your Fund has paid to the investor during the year.

Aston Funds may charge a fee for certain services, such as providing historical account documents.

Mailings to Shareholders

To help reduce Fund expenses and environmental waste, Aston Funds combines mailings for multiple accounts going to a single household by delivering Fund reports (annual and semi-annual reports, prospectuses, etc.) in a single envelope. If you do not want us to continue consolidating your Fund mailings and would prefer to receive separate mailings with multiple copies of Fund reports, please call one of our Investor Services Associates at 800-992-8151.

Distributions

The Fund distributes income dividends and net capital gains. Income dividends represent the earnings from the Fund's investments less its expenses; capital gains generally occur when the Fund sells a portfolio security for more than the original purchase price.

Dividends

The Fund will declare and pay dividends, if any, annually. Net capital gains, if any, will be distributed at least once a year, generally in December.

Dividend Reinvestments

Investors may have their dividends and distributions reinvested in additional shares of the Fund. If you choose this option, or if you do not indicate a choice, your dividends and distributions will be automatically reinvested on the dividend payable date. You can also choose to have a check for your dividends and distributions mailed to you by choosing this option on your account application.

Uncashed Checks

Checks should be cashed upon receipt, as interest will not be paid on uncashed checks. State escheat laws generally require the Aston Funds to remit uncashed checks to the appropriate state after a specific period of time, which varies by state.

Shareholder Information *(cont'd)*

ADDITIONAL INVESTOR SERVICES

Automatic Investment Plan (Class N Shares only)

The Automatic Investment Plan ("AIP") allows you to set up a scheduled transfer of funds from your bank account to the Aston Fund(s) of your choice. You determine the AIP investment (minimum AIP investment amount is \$50) and you can terminate the program at any time. The minimum initial investment for accounts containing an AIP instruction is the same as all other accounts. To take advantage of this feature, complete the appropriate sections of the account application.

Aston Funds Web Site

The Fund maintains a Web site located at www.astonfunds.com. You can purchase, exchange and redeem shares and access information such as your account balance and the Fund's NAV through our Web site. Self-register for online account access at www.astonfunds.com. Your social security number or employee identification number, account number and other security validity information will be required for registration. You may also need to have bank account information, wire instructions, ACH instructions or other options established on your account.

Aston Funds has procedures in place to try to prevent unauthorized access to your account information. The Fund and its agents will not be responsible for any losses resulting from unauthorized transactions on our Web site.

Systematic Withdrawal Plan (Class N Shares only)

This plan may be used for periodic withdrawals (at least \$50 by check or ACH) from your account. To take advantage of this feature:

- you must have at least \$50,000 in your account;
- determine the schedule: monthly, quarterly, semi-annually or annually;
- call 800-992-8151 to add a systematic withdrawal plan to your account.

Retirement Plans and Education Savings Accounts (Class N Shares, as applicable)

Aston Funds offers a range of retirement plans, including Traditional, Roth, SIMPLE and SEP IRAs for Class N shareholders. Aston Funds also offers Education Savings Accounts for Class N shareholders, which allow you to save for qualified elementary, secondary and higher education costs. Using these plans, you can invest in any Aston Fund with a low minimum investment of \$500. The annual maintenance fee for IRAs and Education Savings Accounts is \$15 per account (not to exceed \$30), but it is waived if you have \$35,000 or more in assets. The fee is assessed every December for the current calendar year. To find out more, call Aston Funds at 800-992-8151.

DISTRIBUTION PLAN 12B-1 FEES

To pay for the cost of promoting the Fund and servicing your shareholder account, the Fund has adopted a Rule 12b-1 distribution plan for Class N shares. Under this plan, the Fund pays a fee at an annual rate of not more than 0.25% of the Fund's Class N shares' average daily net assets to the distributor for certain expenses associated with the distribution of Fund shares and other services. The fee is accrued daily and payable monthly. Over time, these fees may increase the cost of your investment and may cost more than paying other types of sales charges.

Compensation to Intermediaries

Certain intermediaries perform sub-transfer agency, sub-accounting and other shareholder services on underlying shareholder accounts. If certain criteria are met, the intermediaries may be paid by the Funds

Shareholder Information *(cont'd)*

for such services. In addition to distribution, service and other fees paid by the Fund, Aston may pay compensation to intermediaries that distribute and/or service investors in the Fund out of its own assets and not as an additional charge to the Fund. These additional payments, which are sometimes referred to as “revenue sharing,” may represent a premium over payments made by other fund families, and may create an added incentive for investment professionals to sell or recommend the Fund over other funds offered by competing fund families. The revenue sharing payments may differ for each fund within the Aston family of funds, including within the same intermediary, and across intermediaries, or within the same fund at the same intermediary.

In addition, representatives of the distributor may be compensated through Adviser incentive programs in a manner that favors one Aston Fund or group of Aston Funds over another Aston Fund.

PORTFOLIO TRANSACTIONS AND BROKERAGE COMMISSIONS

The Subadviser attempts to obtain the best possible price and most favorable execution of transactions in its portfolio securities. There may be times when the Subadviser may pay one broker-dealer a commission that is greater than the amount that another broker-dealer may charge for the same transaction. The Subadviser generally determines in good faith if the commission paid was reasonable in relation to the brokerage or research services provided by the broker-dealer. In selecting and monitoring broker-dealers and negotiating commissions, the Subadviser considers, among other factors, a broker-dealer’s reliability, availability of research, the quality of its execution services and its financial condition.

Dividends, Distributions and Taxes

Dividends and Distributions

The Fund pays dividends and distributes capital gains annually. All dividends and distributions are automatically reinvested at NAV unless you choose to receive them in a cash payment. You can change your payment options at any time by writing to us.

Taxes

Certain tax considerations may apply to your investment in the Fund. The following is a general description of certain federal income tax considerations. If you have any tax-related questions relating to your own investment in the Fund, please consult your tax adviser. Further information regarding the federal income tax consequences of investing in the Fund is included in the SAI.

For federal income tax purposes:

- The tax treatment of dividends and distributions is the same whether you reinvest the dividends and distributions or elect to receive them in cash. Aston Funds will send a statement with the federal income tax status of your dividends and distributions for the prior year generally by February 15.
- Distributions of any net investment income, other than “qualified dividend income,” are taxable to you as ordinary income.
- Distributions of qualified dividend income (i.e., generally dividends received by the Fund from domestic corporations and certain foreign corporations) generally will be taxed to individuals and other non-corporate investors in the Fund at federal income tax rates applicable to long-term capital gains, provided you meet certain holding period and other requirements contained in the Internal Revenue Code of 1986, as amended (the “Code”), with respect to your Fund shares and the Fund meets similar holding period and other requirements with respect to the dividend paying stock. The favorable treatment of qualified dividend income is scheduled to expire for taxable years beginning after December 31, 2012. Dividends received from most REITs and certain foreign corporations are not expected to qualify for treatment as qualified dividend income when distributed by the Fund.
- If the Fund receives dividends from another investment company that qualifies as a regulated investment company for federal income tax purposes and the investment company designates such dividends as qualified dividend income, then the Fund may in turn designate that portion of its distributions derived from those dividends as qualified dividend income as well, provided the Fund meets certain holding period and other requirements with respect to the shares of the investment company.
- Distributions of net capital gain (net long-term capital gain less any net short-term capital loss) are taxable as long-term capital gain regardless of how long you may have held shares of the Fund. In contrast, distributions of net short-term capital gain (net short-term capital gain less any net long-term capital loss) are taxable as ordinary income regardless of how long you may have held shares of the Fund. Because distributions of net short-term capital gain are taxable as ordinary income, you generally cannot offset net short-term capital gain distributions you receive from the Fund with capital losses.
- Generally, the character of the dividends and distributions the Fund receives from another investment company will “pass through” to you, subject to certain exceptions, as long as the Fund and the other investment company each qualify as a regulated investment company under the Code.
- Some of the Fund’s investments may be subject to special provisions of the Code that may increase the amount of gain recognized by the Fund, defer the Fund’s losses, accelerate the Fund’s

Dividends, Distributions and Taxes *(cont'd)*

recognition of gain, affect the character of such income and affect the amount, timing and type of distributions from the Fund, which may increase the amount of taxes payable by you.

- Distributions declared to shareholders of record in October, November or December and paid on or before January 31 of the succeeding year will be treated for federal income tax purposes as if received by shareholders on December 31 of the year in which the distribution was declared.
- When you sell or exchange shares for shares of another fund (other than shares held in a tax-deferred account) it generally is considered a taxable event for you. Depending on the purchase price and the sale price of the shares you sell or exchange, you may have a gain or a loss on the transaction. The gain or loss will generally be treated as a long-term capital gain or loss if you held your shares for more than one year. If you held your shares for one year or less, the gain or loss will generally be treated as a short-term capital gain or loss. Short-term capital gains are taxable at ordinary federal income tax rates. For taxable years beginning on or before December 31, 2012, long-term capital gains are taxable to individuals and other non-corporate investors at a maximum federal income tax rate of 15%. For taxable years beginning after December 31, 2012, the maximum long-term capital gains rate is scheduled to return to 20%. You are responsible for any tax liabilities generated by your transactions.
- If you do not provide Aston Funds with your complete and correct taxpayer identification number and required certification, or if the Internal Revenue Service so notifies us, you may be subject to backup withholding tax on dividends, distributions and redemption proceeds.
- If you purchase shares of the Fund just before a dividend or distribution, you will pay the full price for the shares and receive a portion of the purchase price back as a taxable distribution. This is referred to as "buying a dividend."

Financial Highlights

The Financial Highlights will help you understand the financial performance of the Class N Shares of the Fund for the fiscal period since inception. Some of the information is presented on a per share basis. Total returns represent the rate an investor would have earned (or lost) on an investment in the Fund, assuming reinvestment of any dividends and capital gains distributions.

This information has been derived from the Fund's financial statements as of October 31, 2010. The financial statements for the Fund have been audited by Ernst & Young LLP, the Fund's independent registered public accounting firm, whose report, along with the Fund's financial statements and notes thereto, is included in the Fund's Annual Report, which is available upon request.

Class I shares of the Fund are new and do not have an operating history. Information, when available, will be included in the Fund's semi-annual report dated April 30, 2011.

ASTON/Herndon Large Cap Value Fund – Class N	Period Ended 10/31/10 ^(a)
