## **Aston/TCH Fixed Income Fund Voluntarily Lowers Its Fees in Both Share Classes**

**Chicago, IL – September 20, 2007** – Aston Asset Management is pleased to announce a voluntary fee reduction for the Aston/TCH Fixed Income Fund. Effective September 1, 2007 the firm will waive the fees and/or reimburse expenses so that net operating expenses for the Fund are no more than 0.64% for the N-Class (Ticker: CHTBX) and 0.39% for the I-Class (Ticker: CTBIX) of the Fund’s average daily net assets.

“This reduction in fees is designed to integrate the Fund’s fees with Taplin, Canida & Habacht’s (TCH) institutional pricing schedule. TCH has a highly successful and growing fixed income separate account business and the new pricing schedule should make the Fund highly attractive to 401 (k) plans and smaller institutional separate accounts,” said Ken Anderson, President of Aston Asset Management.

Managed by Taplin, Canida & Habacht, Inc. (TCH), the Aston/TCH Fixed Income Fund invests primarily in a diversified portfolio of intermediate term investment grade fixed income securities consisting of corporate obligations, government and agency securities, mortgage and asset-backed securities and short term money market instruments.

In developing a portfolio strategy, the portfolio managers select a structure that reflects their economic and interest rate outlook, seeking relative value opportunities among sectors and issues utilizing both fundamental and quantitative analysis.

Founded in 1985, Miami, Florida-based Taplin, Canida & Habacht, Inc. provides institutional fixed income asset management services to pension plans, endowments, foundations and insurance companies. “We like to think that the success of this firm is a testament to our investment process,” said Tere Alvarez Canida, President of TCH. “Our portfolio management team and our research analysts have a wealth of experience managing fixed income investments efficiently and effectively, and we strive to provide our clients with the highest quality services in the industry.”
